INDEX TO VOLUME 9

A

Abbott, W. Osler, 141*
Abdomen, distention and release of, effect of, on blood pressures in arteries and veins, 545*
Abnormality, congenital, heart-block with other cardiac anomalies, 96
interauricular septal defect associated with mitral stenosis, 1
Acetyl—b—methylcholin, 140*
action of, on gastrointestinal tract in normal persons, in abdominal distention and in certain other conditions, 141*
action of, on paroxysmal tachycardia and peripheral vascular disease with a discussion of its action in other conditions, 141*
Ackerman, Walter, Kissin, M., and Katz, L. N., 693*
Katz, L. N., Soskin, S., Schutz, W. J., and Plaut, J. L., 825*
Adenosine, effect of, on cardiac irregularities in man, 252
Adrenalin, action of, in complete heart-block, 279,* 549*
Age, advancing, relationship between anatomic changes in knee joint with, 553*
Alexander, John, Field, H., Jr., and Barker, P. S., 298
Allergy, importance of, in rheumatism, 101*
relation of, to general resistance in streptococcic infection, 544*
Anderson, John P., 104*
Anemia as cause of angina pectoris in presence of healthy coronary arteries and aorta, 690*
Aneurysm, of innominate artery, syphilitic aortitis with, and occlusion of left carotid artery, 686
dissecting, 556 (B. R.)
Angina pectoris, 282 (B. R.)
and cardiac asthma, induced by paroxysmal tachycardia, 133*
anemia as cause of, in presence of healthy coronary arteries and aorta, 690*
attacks of, prevention and treatment of individual, 549*
induced by paroxysmal tachycardia, simulation of coronary thrombosis by, 133*
mechanism of attacks of, effect of generalized anoxemia on electrocardiogram of normal subjects, 771
observations on production of pain and fatigue in muscular ischemia and their relationship to, 690*
paroxysm of, electrocardiographic study during, 259
therapeutic effect of total ablation of normal thyroid on congestive heart failure, 137*
treatment, continuous, of, comparative value of drugs used in, 140*
Anoxemia, generalized, effect of, on electrocardiogram of normal subjects, its bearing on mechanism of attacks of angina pectoris, 771
Aorta, coarctation of, sudden death due to rupture of, 533
isthmus of, stenosis of, 695*
thoracic, dynamic dilatation of, 655
Aortitis, syphilitic, with aneurysm of innominate artery and occlusion of left common carotid artery, 686
Arteriography, arteriovenous fistula involving common femoral artery, identified by, 817*
Arteriosclerosis of lumbar segmental arteries producing ischemia of spinal cord and consequent claudication of thighs, 827*
Artery, carotid, common left, occlusion of, and syphilitic aortitis with aneurysm of innominate artery, 686
coronary, paradoxical embolism of, 414
facts on disease of, based on survey of clinical and pathological record of 762 cases, 695*
in rheumatic fever, 557
occlusion, acute, electrocardiographic pattern observed following, complicated by pericarditis, 734
due to metastases from carcinoma of breast, 265
electrocardiographic study of, further observations on use of chest leads, 276*
experimental, 127*
sclerosis of, with myocardial infarction in a young woman, 539
syphilitic disease of, 421
thrombosis, acute, differentiation of, from pulmonary embolism, 692*
and diabetes, 386
early case not hitherto reported, 412
observed onset of bundle-branch block with, 677
simulation of, by angina pectoris induced by paroxysmal tachycardia, 133*
vascular communications between, and chambers of heart, nature of, 143
distribution to left and right ventricles of human heart, 165
femoral, common, arteriovenous fistula involving, identified by arteriography, 817*
innominate, aneurysm of, with syphilitic aortitis and occlusion of left common carotid artery, 686
lumbar segmental, arteriosclerosis of, producing ischemia of spinal cord and consequent claudication of thighs, 827*
pulmonary embolism, experimental, electrocardiographic findings in, 104*
differentiation of, from coronary thrombosis, 692*
ligature, electrocardiographic changes accompanying acutely increased pressure following, 828*
sclerotic wall of, influence of, on blood pressure measurement, 134*

(An asterisk [*] after a page number indicates that the reference is an abstract and not an original article. *B.R.* after a page number indicates that the reference is a book review.)

Arthritis, degenerative, relationship between anatomic changes in knee joint with advancing age, 553*
rheumatoid, comparative study of subcutaneous nodules in rheumatic fever and, 552*
erythrocytic sedimentation test in, clinical significance of, 272*
heart in, and rheumatic fever, 104*
Asthenia neurocirculatory, etiology and symptoms of, 826*
Asthma, cardiac, and acute pulmonary congestion in patients with mitral stenosis, 697
and angina pectoris induced by paroxysmal auricular fibrillation and paroxysmal tachycardia, 133*
Atropine, action of, in complete heart-block, 549*
Aubertin, C., Lemaire, A., Donzelot, E., Clerk, A., Marchal, G., Boigey, R., Mouquin, M., Émile-Weil, P., and Tzanck, A., 142 (B. R.)
Aufranc, Otto Elmo, and Coonse, G. K., 347
Auricle, dilatation, extreme, of left, deformity of chest associated with, 363
rupture of, of heart, 324
experimental changes in RS-T component of electrocardiogram produced by, and by pericardial injection, 333
Averbuck, Samuel H., 692*
Ayerza, black cardiacs of, blood-respiratory function in, 695*
Ayman, David, 133,* 823*
and Krakower, A., 134*

B

Bacal, H. L., and Struthers, R. R., 274*
Bacon, Charles M., and Lundy, C. J., 134*
Bain, C. W. Curtis, 822*
Barium chloride, ephedrin sulphate and, in prevention of Stokes-Adams seizures, 821*
Barker, Paul S., Field, H., Jr., and Alexander, J., 298
Wilson, F. N., and Johnston, F. D., 472
Wilson, F. N., Johnston, F. D., and Macleod, A. G., 447
Hill, I. G. W., and Macleod, A. G., 459
Barnes, Arlie R., 722, 728, 734
Beaver, D. C., and Snell, A. M., 480
Barton, E. M., and Greenwood, H. H., 128*
Battro, Antonio, 282 (B. R.)
Bayless, Francis, and Karsner, H. T., 557
Beaver, Donald C., Barnes, A. R., and Snell, A. M., 480
Bellet, Samuel, and Stewart, H. L., 533
Wood, F. C., McMillan, T. M., and Wolferth, C. C., 276*
Berconsky, Isaac, 695*
Berlin, David D., Blumgart, H. L., Riseman, J. E. F., and Davis, D., 137*
Black, W. C., and Waring, J. J., 817*
Blackford, L. Minor, and McGehee, H. M., 96
Bland, Edward F., and Jones, T. D., 106*
Blood flow, venous, velocity of pulmonary and peripheral, and related aspects of circulation in cardiovascular disease, 742
medical therapeutics of, 142 (B. R.)
pressure, arterial and venous, effect of abdominal distention and release of, 545*
Blood pressure—Cont'd
in newborn, 272*
influence of sclerotic arterial wall on measurements of, 134*
of Chinese living in eastern Canada, 396
variations in tuberculosis, 694*
venous and cerebrospinal fluid pressure in cardiac failure, 823*
effects of digitalis on, of normal individuals, 138*
in thyroid dysfunction, 802
observations on practical significance of, in health and disease, 817*
pulmonary, acutely increased, following pulmonary artery ligature, electrocardiographic changes accompanying, 828*
respiratory function in black cardiacs of Ayerza, 695*
vessels, arterial, distribution to left and right ventricles of human heart, 165
perivascular reaction in lung and liver following intravenous injection of streptococci into previously sensitized animals, 552*
Blumgart, Herrman L., 692*
Riseman, J. E. F., Davis, D., and Berlin, D. D., 137*
Bohning, Anne, and Plaut, J. L., 500
Jochim, K., and Katz, L. N., 273*
Boigey, R., Lemaire, A., Donzelot, E., Aubertin, C., Clerk, A., Marchal, G., Mouquin, M., Émile-Weil, P., and Tzanck, A., 142 (B. R.)
Boller, Charles, and Hurtado, A., 129*
Borman, M. C., Haney, H. F., and Meek, W. J., 272*
Bowman, James E., 272*
Brams, William A., and Golden, J. S., 802
Katz, L. N., and Kohn, L., 545*
Bramwell, Crighton, 546*
Breast, carcinoma of, coronary occlusion due to metastases from, 265
Brenner, Oscar, 692*
Brow, G. R., and Holman, D. V., 259
Bruck, Edwin, L., Reichert, F. L., and Rytand, D. A., 827*
Bruenn, Howard G., 421
Levy, R. L., and Kurtz, D., 691*
Buckbinder, William C., and Katz, L. N., 828
Bunta, Emil, 694*
Burton, Eleanor P., and Howell, K. M., 102*

C

Calhoun, J. Alfred, Harrison, W. G., and Harrison, T. R., 820*
Marsh, J. P., and Harrison, T. R., 824*
Camero, Anthony R., Hitchcock, C. H., and Swift, H. F., 552*
Campbell, Maurice, and Suzman, S. S., 304
Capacity, pulmonary, total, change with body posture, 131*
correlation with physical and radiological measurements, 130*
normal, absolute and relative values, 129*
preliminary observations on cases of pulmonary emphysema and pneumoconiosis, 131*
Capillaries, human, in health and disease, 273*
Carcinoma of breast, coronary occlusion due to metastases from, 265

Cerebrospinal fluid pressure and venous pressure in cardiac failure, 823*
Chamberlain, C. T., Griffith, G. C., and Kitchell, J. R., 544,* 817*
Chest, deformity of, associated with extreme dilatation of left auricle, 363
expiratory position of, in man, influence of some ordinary activities on, plethysmographic study of and quiet breathing, 129*
Chester, William, and Schwartz, S. P., 105*
Children, cardiac, convalescent care of, 106*
rheumatic manifestations in subacute bacterial endocarditis in, 29
Chinese, blood pressure of, in eastern Canada, 396
Chordae tendineae, rupture of, of mitral valve, 492
Chorea, course and prognosis of, and rheumatic fever, 106*
Circulation, coronary, coronary pressure pulses and their interpretation, 272*
effect on, of acute experimental hypervolemia, 545*
in cardiovascular disease, velocity of pulmonary and peripheral venous blood flow and related aspects of, 742
mechanism of relation of intrapleural pressure to, 347
peripheral, in acute lobar pneumonia, 821*
pulmonary, 692*
obstruction in, syndrome of, 817*
speed of, observations on, 822*
Cisternal pressure in congestive heart failure and its bearing on orthopnea, 275
Clark, Gurney, Grollman, A., Friedman, B., and Harrison, T. R., 132*
Claudication of thighs, arteriosclerosis of lumbar segmental arteries producing ischemia of spinal cord and, 827*
Clawson, B. J., 544*
Clerk, A., Lemaire, A., Donzelot, E., Aubertin, C., Marchal, G., Boigey, R., Mouquin, M., Émile-Weil, P., and Tzanck, A., 142 (B. R.)
Clowe, G. M., Kellert, E., and Gorham, L. W., 324
Coburn, Alvin E., 132*
Coggeshall, H. C., and Greene, J. A., 129*
Cohn, Alfred E., and Lingg, C., 283
Comroe, Bernard I., 680
Condenser, effect of, in electrocardiogram, 517
Congenital abnormality, heart-block, 96
interauricular septal defect, associated with mitral stenosis, 1
Congestion, acute pulmonary, and cardiac asthma in patients with mitral stenosis, 697
Convalescent care of cardiac children, 106*
Cooley, Laurence E., and McNamara, F. P., 686
Coonse, G. Kenneth, and Aufranc, O. E., 347
Cotton, F. S., and Wiggers, C. J., 272*
Cowan, Donald W., 378
Craig, Henry R., and White, P. D., 826*
Crane, Martin P., and Leplace, L. B., 690*
Crawford, Baxter L., and Mahler, H. K., 548*
Creatine concentration, difference in, of left and right ventricular cardiac muscle, 819*
content of myocardium of normal and abnormal human hearts, 378
Crittenden, P. J., Maher, C. C., and Shapiro, P. F., 664
Crummer, Leroy, obituary, 418
Cullen, Glenn, E., and Wilkins, W. E., 274

D

Daughton, A. D., Hart, A. D., and Wood, J. E., 690
Davis, Austin C., and Smith, H. L., 81
Davis, David, and Weiss, S., 45
Blumgart, H. L., Riseman, J. E. F., and Berlin, D. D., 137*
Dawson, M. H., 552*
de la Chapelle, Clarence, Graef, I., and Rottino, A., 103*
Death, cause of, clinical notes on rheumatic heart disease with special reference to, 278*
sudden, due to rupture of aorta with coarctation, 533
Dermatitis, exfoliative, acute diffuse myocarditis following, 813
Diabetes and coronary thrombosis, 386
Diastole, phases of, observations on duration of, in man, 500
Digitalis and diphtheria toxin, alleged antagonism between, 549*
cumulation of, observation on nature of, in ambulatory patients with cardiac disease, 279*
dose, clinical, and effects of, assayed by pigeon method, 248
effect of, on venous pressure of normal individuals, 138*
specialties, comparative potency of, according to pigeon method, 138*
studies on, in ambulatory patients with cardiac disease, further observations on nature of cumulation, 279*
Diphtheria toxin and digitalis, alleged antagonism between, 549*
Diuretics, action of, studies on, 139*
Dock, William, 128*
Donzelot, E., Lemaire, A., Aubertin, C., Clerk, A., Marchal, G., Boigey, R., Mouquin, M., Émile-Weil, P., Tzanck, A., 142 (B. R.)
Dresbach, M., Randles, F. S., and Gorham, L. W., 333
Duryee, A. Wilbur, and Wright, I. S., 273*
Dyson, John M., 764
Dyspnea, evening, reflex stimulation of respiration as cause of, 824
nocturnal, clinical types, 820*

E

Edeiken, Joseph, and Wolferth, C. C., 828*
Eggleston, Cary, 826
Electrocardiogram, apparatus for simultaneous and arterial pulse records, 530
changes accompanying acutely increased pulmonary pressure following pulmonary artery ligature, 828*
correlation of initial deflections of ventricular complex with situation of acute myocardial infarction, 728

Electrocardiogram—Cont'd
effect of condensers in, 517
effect of generalized anoxemia on, of normal subjects, its bearing on mechanism of attacks of angina pectoris, 771
findings in experimental pulmonary embolism, 104*
form of, in experimental myocardial infarction; septal infarcts and origin of preliminary deflections of canine levocardiogram, 596
huge T-waves in precordial leads in cardiac infarction, 706
in acute experimental distention of right heart, 828*
initial complex of, after infarction of human heart, 616
interpretation of lead inversion in bundle-branch block, 72
large Q-waves in Lead III, 694*
observation on carotid sinus reflex, 782
pattern observed following acute coronary occlusion complicated by pericarditis, 734
precordial lead in normal adults, 511
Q and T types of, their comparative and complimentary value in indicating occurrence of acute myocardial infarction, 722
QRS complex, duration of, in normal and abnormal, 642
identification of separate complexes of, 238
representing potential variations of a single electrode, 447
RS-T component, changes in, produced by experimental rupture of auricle of dog's heart and by pericardial injection, 333
RS-T segment, changes in, relation between position of experimental myocardial lesion in dog and, 272*
self-retaining skin contact electrode for chest leads in, 526
significance, clinical, of low T-waves in, 828*
significance of, characterized by, on abnormally long QRS interval and by broad S deflections in Lead I, 459
significance of ventricular preponderance and T-wave inversion in human, 693*
study during a paroxysm of angina pectoris, 259
study of coronary occlusion, further observations on chest leads, 276*
study of viscerocardiac reflexes during major operations, 664
type of, unusual, in right bundle-branch block, 472
voltage, low, 405
Electrode, self-retaining skin contact for chest leads in electrocardiography, 526
Electrolytes in human tissue, comparison of normal hearts with hearts showing congestive heart failure, 274*
Elliot, Albert H., 690*
Elliott, Arthur R., and Fenn, G. K., 806
Ellis, Laurence B., and Weiss, S., 139*
Elsom, K. A., Starr, I., and Reisinger, J. A., 140*
Embolism of pulmonary artery, experimental, electrocardiographic findings in, 104*
Émile-Weil, P., Lemaire, A., Donzelot, E., Aubertin, C., Clerk, A., Marchal, G., Boigey, R., Mouquin, M., and Tzanck, A., 142 (B. R.)
Emphysema, pulmonary, observation on, and pneumoconiosis, 131*
Endocarditis, subacute bacterial, in children, rheumatic manifestations in, 29
gonococcus, diagnosis of, 134*
Enklewitz, Morris, 386
Ephedrin, Stokes-Adams disease treated with, 90
sulphate and barium chloride in prevention of Stokes-Adams seizures, 821*
Eppinger, Eugene C., and Midelfort, P. A. H., 695*
Evans, William, and Hoyle, C., 140,* 549*
Exercise tolerance test, metabolic, for patients with cardiac disease, 825,* 826*
Exudate, cytological studies of granulomata and, from patients with rheumatic fever, 101*
Eyster, J. A. E., and Hicks, E. V., 544*

F

Fardy, Ann, 105*
Fatigue, observation on production of pain and, in muscular ischemia and their relationship in angina pectoris, 690*
Feil, H. S., and Stone, C. S., 53
Fenn, George Karl, and Elliott, A. R., 806
Fibrillation, auricular, paroxysmal, and paroxysmal tachycardia, angina pectoris and cardiac asthma induced by, 133*
paroxysms of, prevention of, use of quinidine in ambulatory patients for, with especial reference to dosage and effects on intraventricular conduction, 219
pathological changes in heart in, 548*
relationship of, to mitral stenosis and certain rheumatic tissue changes, 103*
ventricular transient, 818,* 819*
action of quinine and quinidine in patients with, 792
Field, Henry, Jr., Barker, P. S., and Alexander, J., 298
Fistula, arteriovenous, involving common femoral artery, identified by arteriography, 817*
France, Richard, 694*
Frankel, A., 419 (B. R.)
Fray, Walter W., and Hurtado, A., 130,* 131*
and McCann, W. J., 131*
Friedlander, Alfred, 212
Friedman, Ben, Grollman, A., Clark G., and Harrison, T. R., 132*
Frothingham, Channing, and Hass, G. M., 492
Flutter, auricular, paroxysm of, prevention of, use of quinidine in ambulatory patients for, with especial reference to dosage and effects on intraventricular conduction, 219

G

Gentile, R. J., and Wood, J. E., Jr., 530
Gibbon, John H., and Landis, E. M., 277*
Gilchrist, A. Rae, 279,* 549,* 556,* 821*
Glucose therapy in heart failure in advanced heart disease, 437
Gold, Harry, and Klumpp, M. M., 549*
Otto, H. L., and Messelhoff, C. R., 279*
Satchwell, H., 219
Goldbloom, A. Allen, 818*

Golden, J. S., and Brams, W. A., 802
Goldsmith, Melville A., Stroud, W. D., Polk, D. S., and Thorp, F. Q., 135*
Gorham, L. W., Clowe, G. M., and Kellert, E., 324
Randles, F. S., and Dresbach, M., 333
Graef, Irving, de la Chapelle, C., and Rottino, A., 103*
Granulomata, cytological studies of, and exudates from patients with rheumatic fever, 101*
Greene, J. A., and Coggeshall, H. C., 129*
Greenwood, H. H., and Barton, E. M., 128*
Gregg, D. E., and Wiggers, C. J., 545*
Griffith, George C., Chamberlain, C. T., and Kitchell, J. R., 544,* 817*
Grollman, Arthur, Friedman, B., Clark, G., and Harrison, T. R., 132*
Gross, Louis, and Kugel, M. A., 165
Rothschild, M. A., and Kugel, M. A., 586

H

Hallock, Phillip, 196
Hamburger, Walter W., Katz, L. N., and Schutz, W. J., 771
Haney, Hance F., Borman, M. C., and Meek, W. J., 272*
Hanzlik, P. J., and Lehman, A. J., 138*
Harrison, T. R., Grollman, A., Friedman, B., and Clark, G., 132*
Harrison, W. G., and Calhoun, J. A., 820*
and Marsh, J. P., 824*
Harrison, William Groce, Jr., 275,* 823*
Calhoun, J. A., and Harrison, T. R., 820*
Marsh, J. P., and Harrison, T. R., 824*
Hart, Andrew D., Wood, J. E., and Daughton, A. D., 690*
Hass, George M., and Frothingham, C., 492
Health, public heart disease from point of view of, 283
Heart, arrhythmia, 282 (B. R.)
block, ephedrin sulphate and barium chloride in prevention of Stokes-Adams seizures, 821*
auriculoventricular, complete paroxysmal, 267
bundle branch, 548
electrocardiographic appearance of, in man, effect of heart's position on, 693*
interpretation of lead inversion in, 72
nature and significance of heart sounds and of apex impulse in, 824*
observed onset of, with coronary thrombosis 45 hours later, 677
right, electrocardiograms of, unusual type in, 472
complete, action of adrenalin in, 279,* 550*
action of atropine in, 549*
congenital, 304
in hyperthyroidism following acute infections, 81
treated with ephedrin, 90
congenital, with other cardiac anomalies, 96
transient, observation on alteration in rhythm of heart preceding syncopal seizure in a woman with, 819*
chambers of, vascular communications between coronary arteries and, nature of, 143
Heart—Cont'd
contraction, duality of, 556 (B. R.)
premature, ventricular left, from electrical stimulation of exposed human heart, 134*
dilatation and hypertrophy in infants and young children, 136*
disease, advanced, glucose therapy in heart failure in, 437
ambulatory patients with, studies on digitalis in further observations on nature of cumulation of digitalis, 279*
and thyroid disease, medical treatment of, 826*
in children, convalescent care, 106*
factors causing clinical jaundice in, 135*
from point of view of public health, 283
in pregnancy, 692*
pulmonary, in pneumoconiosis, 764
radiology in, 546*
rheumatic, clinical conception of, 26
clinical notes on, with special reference to cause of sudden death in, 278*
emboli, manifestations of, in, 45
incidence and significance of active infection in cases of, during various age periods, 586
lesions of kidney associated with, 105*
manifestation of, in subacute bacterial endocarditis in children, 29
in southern Florida, 63
ten years' observations of children, 135*
enlargement, radiological diagnosis of, 546*
failure, cerebrospinal fluid pressure and venous pressure in, 823*
clinical types of nocturnal dyspnea, 820*
critical study of methods for determining cardiac output in patients with cardiac disease, 132*
electrolyte in human tissue, comparison of normal hearts with hearts showing, 274*
reflex stimulation of respiration as cause of evening dyspnea, 824*
therapeutic effect of total ablation of normal thyroid on, and angina pectoris, 137*
congestive, cisternal pressure in, and its bearing on orthopnea, 275*
glucose therapy of, in advanced heart disease, 437
hypertrophy and dilatation in infants and young children, 136*
of unknown etiology in young adults, 178
impulse apex, nature and significance of heart sounds and, in bundle-branch block, 824
in myxedema, 196
in rheumatic fever and rheumatoid arthritis, 104*
infarction, huge T-waves in precordial leads in, 706
correlation of initial deflection of ventricular complex with situation of, 728
Q and T types of electrocardiogram, 722
irregularities in man, effect of adenosine, 252
medical therapeutics, 142 (B. R.)
muscle, ventricular left and right, difference in creatine concentration of, 819*
output, critical study of methods for determining, in patients with cardiac disease, 132*

Heart, output—Cont'd
effect of respiration on, 544*
pathological changes in, in auricular fibrillation, 548*
position, effect of, on electrocardiographic appearance of bundle-branch block in man, 643*
preponderance, ventricular right, of, 693*
right, distention of, acute experimental, electrocardiogram in, 828*
sarcoma, primary, 480
sound, mode of production of, 128*
nature and significance of, and apex impulse in bundle-branch block, 824*
stimulus, internal, orgin of, 119
Hemopericardium, 680
Hemorrhages, paroxysmal pulmonary, with mitral stenosis, 14
Henner, Robert, Soskin, S., Katz, L. N., and Markle, P., 826*
Henrijean, F., 556 (B. R.)
Heredity in arteriolar hypertension, 823*
Hicks, Earl V., and Eyster, J. A. E., 544*
Higley, Charles S., and Stecker, R. M., 90
Hilbert, Eunice H., and Seham, M., 275*
Hill, Ian G. W., Wilson, F. N., and Johnston, F. D., 596
Macleod, A. G., and Barker, P. S., 459
Hirsch, I. Seth, 822*
Hitchcock, Charles H., Camero, A. R., and Swift, H. F., 552*
Holman, Delavan V., and Brow, G. R., 259
Holt, Evelyn, 363
Horton, Bayard T., 817*
Howell, Katharine M., and Burton, E. P., 102*
Hoyle, Clifford, 276*
and Evans, W., 140,* 549*
Hurtado, Alberto, and Boller, C., 129*
and Fray, W. W., 130,* 131*
Fray, W. W., and McCann, W. S., 131*
Hurwitz, David, Solomon, P., Woodall, M., and Lamb, M. E., 134*
Hurxthal, Lewis M., 238
Hypertension, arteriolar, essential, personality type of patients with, 133*
heredity in, 823*
pituitary secretion in, 276*
Hyperthyroidism, complete heart-block in, following acute infection, 81
Hypervolemia, experimental acute, circulatory effect of, 545*

I

Infants, heart dilatation and hypertrophy in, and young children, 136*
Infarction, experimental, of interventricular septum, 128*
myocardial acute, correlation of initial deflections of ventricular complex with situation of, 728
Q and T type of electrocardiogram, their comparative and complimentary value in indicating occurrence of, 722
experimental, form of electrocardiogram in, 596*
in a young woman, sclerosis of coronary arteries, 539
of heart, huge T-wave in precordial leads in, 706
human, initial complexes of electrocardiogram after, 516

Katz, L. N., Soskin, S., Schutz, W. J., and Ackerman, W., 825*
Pleural pressure, relation of, to mechanics of circulation, 347
Pneumoconiosis, observation on, and pulmonary emphysema, 131*
pulmonary heart disease in, 764
Pneumonia, lobar, acute, peripheral circulation in, 821*
Polk, D. Stewart, Stroud, W. D., Goldsmith, M. A., and Thorp, F. Q., 135*
Posture, body, changes in total pulmonary capacity with, 131*
Precipitin reactions in blood of rheumatic patients following acute throat infections, 554*
Pregnancy, heart disease in, 692*
Prinzmetal, Myron, and Kellogg, F., 370
Pulse, arterial, apparatus for simultaneous electrocardiograms and records of, 530
jugular, significance of, in clinical diagnosis of ventricular tachycardia, 370
pressure, coronary, and interpretation, 272*
Purks, W.K., 655

Q

Quinidine, action of, and quinine on patients with transient ventricular fibrillation, 792
use of, in ambulatory patients for prevention of paroxysms of auricular flutter and fibrillation with especial reference to dosage and effect on intraventricular conduction, 219
Quinine, action of, and quinidine on patients with transient ventricular fibrillation, 792

R

Radiology of heart disease, 546*
Randles, F. S., Gorham, L. W., and Dresbach, M., 333
Rathe, H. W., 539
Reflex carotid sinus, electrocardiographic observations on, 782
viscerocardiac, during major operation, electrocardiographic study of, 664
Reichert, Frederick L., Rytand, D.A., and Bruck, E. L., 827*
Reisinger, J. A., Starr, I., and Elsom, K. A., 140*
Respirations, effect of, on cardiac output, 544*
influence of determination of basal metabolism on respiratory movements in man and effect of these alterations on calculated basal metabolic rate, 129*
quiet breathing, study of, and influences of some ordinary activities on expiratory position of chest in man, 129*
reflex stimulation of, as cause of evening dyspnea, 824*
Rheumatic fever, bacteriological study of throats in, with special reference to hemolytic streptococci, 102,* 553*
comparative study of subcutaneous nodules in, and rheumatoid arthritis, 552*
coronary arteries in, 557
course and prognosis of, and chorea, 106*
cytological studies of granulomata and exudate from patients with, 101*
determination of activity of, in childhood, 274*
dissociation of streptococci obtained from, 102*
etiology of, 102*
heart in, and rheumatoid arthritis, 104*
tissue changes, relationship of auricular fibrillation to mitral stenosis and, 103*
in Piedmont, Virginia, incidence and clinical manifestation, 690*
precipitin reactions in blood of, following acute throat infections, 554*
relationship of, to development of alteration of tissues, 132*
skin lesions in, 105*
Rheumatism, importance of allergy in, 101*
muscular, in childhood, 275*
Riseman, Joseph E. F., Blumgart, H. L., Davis, D., and Berlin, D.D., 137*
